Location: Hyderabad, India – 500018

LinkedIn: <https://www.linkedin.com/in/mamatha-pondara/>

PROFESSIONAL SUMMARY

Frontend Developer with 3+ years of IT experience specializing in React.js and UI development. Proven expertise in building high-performance SPAs, implementing secure authentication systems, and creating scalable web applications. Strong background in API integration, state management, and modern frontend development practices with experience in Agile environments.

TECHNICAL SKILLS

Frontend Technologies: React.js, Next.js, JavaScript (ES6+), HTML5, CSS3, JSX

State Management: Redux, Redux Toolkit, Zustand, Context API, React Hooks

Styling & UI: Tailwind CSS, Material-UI, Bootstrap, Ant Design, Responsive Design

Build Tools: Webpack, Babel, ESLint, Prettier

Testing: Jest, Unit Testing

Version Control: Git, GitHub.

Backend Integration: RESTful APIs, Axios, Fetch API

Cloud & Deployment: AWS, CI/CD pipelines

Other: Visual Studio Code, Chrome Dev Tools, JIRA, Agile/Scrum methodologies

PROFESSIONAL EXPERIENCE

React Developer | Apaar Software

April 2023 - Present

- Developed and maintained 4+ React/Next.js apps with secure Keycloak-based auth and RBAC
- Built responsive, mobile-first UI using Tailwind CSS and Material-UI
- Integrated REST APIs for real-time data and user interaction
- Optimized performance with lazy loading and code splitting
- Worked with cross-functional teams to deliver scalable web solutions

React Developer | Cintap India Pvt Ltd

July 2022 - February 2023

- Built secure file transfer/auth systems with React.js using modern UI/UX principles
- Used React Hooks & Context API for state management and responsive interfaces
- Developed dynamic forms with real-time validation and reusable admin components

Frontend Developer (Intern) | Metrolabs Services Pvt. Ltd

October 2021 - April 2022

- Built responsive e-commerce product catalog components using React.js and Material-UI
- Added filtering, sorting, pagination, and integrated REST APIs for real-time data
- Collaborated with development team following best practices for code quality and reusability

KEY PROJECTS

Employee Management Dashboard – StacX EM8 | *Next.js, Tailwind CSS, Context API, Keycloak*

- Built responsive Employee Management System serving multiple user roles with secure authentication
- Implemented role-based access control and dynamic routing for Admin/Employee permissions
- Integrated RESTful APIs for employee records, roles, and reporting modules

CM5 Content Management System | *Next.js, Tailwind CSS, RESTful APIs*

- Developed scalable CMS with admin dashboard for dynamic content management
- Implemented SSR and SSG for improved performance and SEO optimization
- Added e-commerce module with secure payment processing and cart management

MCV Bajaj Motorcycle Showroom Management | *React.js, Redux, Material-UI, Bootstrap*

- Created comprehensive management application for employees, vehicles, accessories, and service records
- Built reusable UI components including dynamic tables, forms, and modals
- Implemented responsive design ensuring seamless experience across desktop and mobile devices

Kid Hood School Management System | *React.js, Redux Toolkit, Material-UI, Chart.js*

- Developed full-featured School Management System with advanced state management
- Built interactive data visualization dashboards for curriculum progress and student performance tracking
- Implemented role-based access control and data encryption for security compliance
- Applied performance optimizations including lazy loading and code splitting

EDUCATION

Bachelor of Technology in Computer Science

Siddartha Institute of Technology and Science (SITS), JNTUH | 2013 - 2017

CERTIFICATIONS & ACHIEVEMENTS

- **React JS Certification (Intermediate)** - Scaler Academy (2023)
- **Front-End Developer Internship Certificate** - Metrolabs Services Company (2022)

ADDITIONAL INFORMATION

- **Languages:** English, Telugu, Hindi, Oriya.
